

ART CLAY™ SILVER Basic Instruction Guide

Rose Pendant

Completed piece

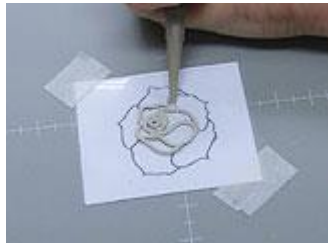

<Material>

Art Clay Silver 650 Syringe Type 5g	1pc
Art Clay Silver 650 Paste Type	a small amount
Nozzle C/ Gray	1pc
Round Jump Ring (Large)	1pc
Cable Chain (SV925) ϕ 0.5 50cm	1pc

<Step by Step Guide>

1) Draw the rose design on a sheet of paper, place a sheet of plastic on the design, and attach with some adhesive tape so as not to move.

2) Start extruding syringe line with the grey nozzle while attaching the nozzle tip on the plastic sheet.

3) Keep the tip of the syringe 1cm away from the plastic sheet following the design as you work. When finishing, touch the nozzle tip briefly on the plastic sheet, and cut the syringe line by dragging up quickly.

4) Fix the syringe line which moves outside of the design and any joins with a moistened paint brush while the clay is soft.

5) Extrude the line to form a double layer, and dry.

6) Fill any gaps in the joins and the sides with Paste Type, dry again and fire.

7) Polish the entire piece with a stainless steel brush, make a mirror finish with a burnisher, attach the chain and finish.
