Art Clay Silver Syringe Type	5g
Acrylic UV Resin (Clear) and UV color	A small amount

<Step by Step Guide>

Design Pattern

1) Paint a small amount of food oil on a working sheet.

2) Roll out 10g of clay into a 5cm long rope.

3) Roll out a 1mm thick oval shape with a mini roller.

4) Cut out the oval shape, and dry completely.

5) Smooth the sides with a red sponge sanding pad.

6) Draw an outline with a STABILO pencil.

7) Extrude syringe line with a green nozzle on the outline. Only do the window frame with a blue nozzle.

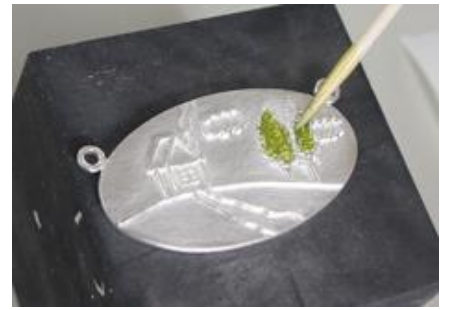

8) Cut off 1/3 of the insert part of a small flat screw eye with a nipper.

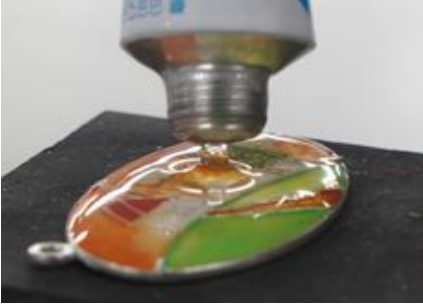

9) Create dents for the screw eyes on the top back each side with a craft knife.

10) Attach the screw eyes with a small amount of Paste Type and dry completely. Fire at 800C/1472F for 5 minutes.

11) Polish with a stainless steel brush, then mix a small amount of UV resin and UV colors, and paint on the piece.

12) Cover a small amount of UV resin on the surface, cure for 5 minutes in a UV light box, and finish. *Dark colors need more time to cure completely.
