

ART CLAYTM SILVER **Basic Instruction Guide #063**

Heart Pendant with Brass Balls

Level: Beginners/Intermediate

Completed piece

<Materials>

Art Clay Silver Syringe Type	10g
Brass ball dia.4.5mm	This piece uses 18pcs.

<Step by Step Guide>

1. Draw the heart design with a pencil on a cooking sheet, place a clear file on, and extrude green nozzle syringe in double layers like the image.

2. Embed brass balls on the syringe, extrude third layer, and dry. Reinforce the sides with a small amount of Paste Type, dry, and smooth with a red sponge sanding pad (#320-600). Attach a small flat screw eye with a small amount of Paste Type on the top, dry completely and fire in an electric kiln at 800C/1472F for 5mins. Polish with a stainless steel brush and burnish with a burnisher.
